segnali DI LUCE

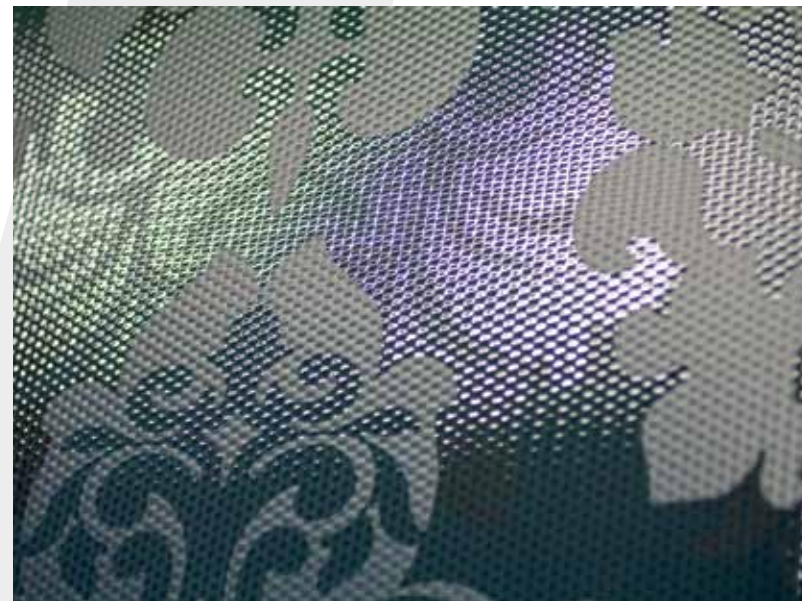

light signals

Pixel interpreta un nuovo orizzonte ceramico. La superficie è garbatamente mossa da un'infinità di punti che creano un vellutato rilievo trasparente. I colori prendono vita, accendendosi di affascinanti e sensuali vibrazioni luminose. Un ritmo breve, veloce, sempre fedele a se stesso, ma al tempo stesso diverso, proprio là dove la superficie interseca in modo sempre inatteso le sorgenti di luce. Questo gioco infinito di molteplici suggestioni è reso possibile da tecnologie evolute in grado di scrivere sulla materia effetti tridimensionali, plasmandola e rendendola unica, vivace, luccicante. Tecnologie all'avanguardia asservite allo stile d'arredo. Da questo nascono superfici docili al tatto e sorprendenti allo sguardo. Giorno dopo giorno, ci sarà sempre un aspetto di questa superficie che avrà qualcosa di nuovo e imprevedibile da raccontarvi.

Pixel interprets a new ceramic horizon. The surface is gently highlighted by infinite points giving life to a transparent velvet relief. Colours come to life, lighting up with fascinating and luminous vibrations. A brief, rapid pattern, always consistent, but at the same time different where the surface intersects, in an always unexpected way, with the light sources. This endless play of multiple inspirations is made possible thanks to state-of-the-art technologies that are able to inscribe three-dimensional effects on the material, giving it a unique, vibrant and sparkling shape. Cutting edge technology at the service of furnishing design. This process gives rise to surfaces that are soft at touch and astonishing to the eye. Day after day, there will always be a feature of this surface that will have something new and unexpected to express.

Pixel è il ritorno alla materia che esprime un linguaggio proprio, tipicamente ceramico. I colori, a volte neutri, sommessi e a volte accesi e protagonisti. Con questa collezione si riscopre una materia che onora la propria storia: superfici ad alto impatto espressivo sia a rivestimento che a pavimento, interpretate in chiave contemporanea. I suoi temi decorativi prendono spunto dai ritmi del nostro tempo, dal mondo dell'arte e dal mondo della natura. Uno strumento ricco e duttile, dove il sogno di arredare in modo importante ed elegante il proprio spazio trova molteplici risposte. La suggestione dei giochi di luce esplode magicamente sugli elementi decorativi, dove effetti cromatici inattesi, a volte metallizzati, materici e a volte iridescenti, accompagnano lo sguardo cambiando al suo spostarsi.

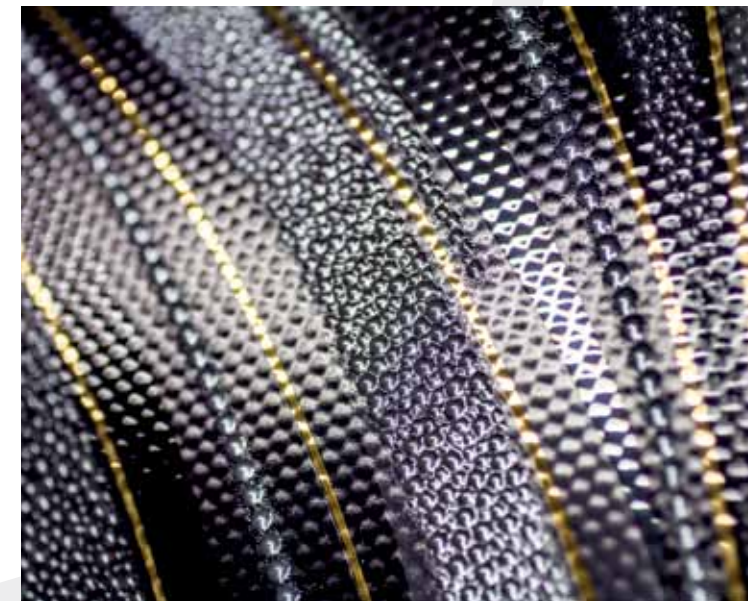

espressioni

CERAMICHE

ceramic expressions

Pixel is a return to a material that speaks its own language, typically ceramic. Colours are sometimes neutral and subdued, other time lively and dominating. This collection rediscovers a material that pays respect to its own history: surfaces that are highly expressive, both as tiling and as flooring, interpreted with a modern sensibility. Its decorative themes are inspired by the rhythms of our time, from the world of art and from nature. A luxurious and flexible tool, where the dream of furnishing one's own space in a significant and elegant way, is fulfilled in many different ways. The splendours of the plays of the light magically explode on the decorative elements, where unexpected chromatic effects, at times metallic, at times material, and at times iridescent, follow the gaze, changing as it moves.
